

I am a long time listener, supporter and contributor to KLOVE radio, a listener supported Christian radio group broadcasting nationally through the use of FM translators. I very much enjoy listening to KLOVE at home and wherever I travel. KLOVE's programming is always family-friendly and 'G-rated'. My children have also listened to KLOVE for years. They still listen and they are now teens. KLOVE is a positive influence for all of us. Please do not allow the low power FM stations to supplant translator stations like KLOVE. Thank you.
